

SAFETY WORKS™ here 2" x 4" transparent decal- 2 per page. Removable adhesive for placement on clear glass entrance doors.

FRONT

BACK

The back view of the decal contains a diamond-shaped logo with the words "SAFETY WORKS" inside. To the right of the logo is the text: "Preventing visitors from workplace injuries is equally important as preventing employee injuries." Below this is a numbered list of five steps for installation. At the bottom right is the CLEARPATH mutual logo, and at the bottom left is a paragraph of text providing information on where to order more decals and that the program resources are free.

**SAFETY WORKS**

**Preventing visitors from workplace injuries is equally important as preventing employee injuries.**

1. Position this decal at eye level and square to the frame of a glass door or window.
2. Peel decal from paper backing,
3. Place adhesive side to glass on inside of door or window and press in place.
4. Smooth out any air bubbles.
5. Need to move the decal? No problem. Just lift, reposition, and press in place.

**CLEARPATH**  
mutual™

Order additional Point of Risk (POR) decals in the SAFETY WORKS™ members section at [clearpathmutual.com](http://clearpathmutual.com). All SAFETY WORKS™ program resources, materials, and merchandise are FREE for policyholders.
